09, January 2021,

To whom it may concern,

Regarding Software Engineering Internship

I am Chamod Hasanka, a highly motivated and hardworking individual, who is currently an undergraduate at Sri Lanka Institute of Information Technology. My ambitious interest in front-end software development combined with working at your company would be a unique and enriching experience for both parties.

I am skilled with many Frontend, Backend languages and I am willing to become a fully qualified Front-end developer or move forward in UX/UI side . I am skilled in good project management strategies. I have experience with various types of projects which requires a different set of project management skills.

As for my qualification, I am currently an undergraduate student of BSc. (Hons) Software Engineering at SLIIT. I have done several projects to gain experience. I have enhanced my time-management abilities and cultivated a reputation as a major contributor through decision-making and teamwork. I am a collaborative team player who is always searching for opportunities to impart valuable insights. With these qualities, I am able to facilitate positive change and impact outcomes.

My skill preferences which I have archived so far would be highly relevant to your specific case in many ways and will prove the value that I can add to your team. For a greater presentation of my background and qualifications, please review my attached resume. I am eager to speak with you and greatly appreciate your consideration.

Sincerely,

Chamod Hasanka

Chamod Hasanka
Undergraduate

A highly motivated and hardworking Sri Lankan undergraduate student studying software engineering. I am skilled in graphic design and have prior experience in software engineering.
